Purpose

We are Cumbria County Council's Adult Social Care Team and we are responsible for providing the following service:

- As a council with Adult Social Services Responsibilities (CASSR) with an eligible population of at least 150 carers, Cumbria County Council is required to carry out the annual Survey of Adult Carers In England (SACE) on behalf of the NHS.
- The Survey of Adult Carers in England (SACE) provides outcome-focused intelligence information on carers and the services they receive. It measures the extent to which services improve carers' ability to care and live a life outside the caring role. The need to assess the impact on carers of the provision and quality of services provided to service users is also important.
- The data collected is sent to NHS Digital and are used as the basis of analyses that are included in national level Official Statistics reports. Data is also used to populate several measures in the Adult Social Care Outcomes Framework (ASCOF).

Data Collection

While providing services we collect data from our customers in the following ways:

- A questionnaire will be posted to a randomised cohort of carers who provide care within Cumbria County. A unique code is generated by councils so that returned questionnaires can be mapped back to the participant. This will enable survey teams to follow up those who have not initially responded to the survey, and to bring together information from a variety of data sources.
