Financial Entitlements for Care Leavers

Help we provide for Care Leavers

It should be noted that this list is not exhaustive and should be read alongside our Care Leaver Local Offer which sets out more practical support from lots of services. All financial requests must be based on a needs assessment and will be linked to your pathway plan. It is really important that you engage in this so we can support you in your future aspirations and in your day to day life. There will always be new areas we had not thought about, so rather than struggle, if in doubt ask us, we might have a helpful solution, or you might give us a new area to work on.

There is sometimes different help on offer based on your age and your care leaver status and that can be confusing, so if you are unsure if you are Eligible, Relevant, Former Relevant or Qualifying please speak with your personal advisor or try the following useful link on the Care leaver Local offer page to help find this out.

We hope to have made this clear in the guidance but if in doubt do ask your personal advisor.

Some payments are discretionary. This means they are not given to everyone. They are based on an assessment of need, your pathway plan, engagement with services to help you and the potential positive outcomes they could bring.
