

Application for a standard or large bus permit

About this form

You should complete this form if you wish to apply for a permit under section 19 of the Transport Act 1985. **Note: a single legal entity cannot hold both a permit under the 1985 Act and an operator's licence under the Public Passenger Vehicles Act 1981.**

Section 19 Permits

A section 19 permit can only be granted to a body concerned with education, religion, social welfare, recreation or other activities of benefit to the community. These permits are either 'standard permits' for vehicles which are adapted to carry no more than 16 passengers (excluding the driver) or 'large bus permits' for vehicles which are adapted to carry 17 or more passengers.

A permit allows the holder to operate transport services for hire or reward without the need for a full public service vehicle (PSV) operator's licence, provided the services are neither carried out with a view to profit nor incidentally to an activity that is itself carried on with a view to profit.

A section 19 permit enables an organisation to transport their members, or people whom the organisation exists to help. Vehicles cannot be used to carry members of the general public.

As a permit holder you have a responsibility to make sure that your services are operated within the law, with vehicles properly maintained and using drivers with the appropriate qualifications.

Only organisations which meet at least one of the following exemptions can apply for a section 19 permit.

Exemptions

- Non-commercial purposes – An applicant should be satisfied that its overall purpose in providing road passenger transport and all of those services are exclusively non-commercial.
- Main occupation – In order to meet this exemption an applicant's road passenger transport operation must be ancillary or complementary to another activity, which must demonstrably be their main occupation.
- Short distance – Only applicants engaged exclusively in national transport operations and which have only a minor impact on the transport market because of the short distances involved can rely upon this exemption. Short distance is generally regarded as those services within a ten-mile radius or length, although longer distances can be considered in certain circumstances.

Please refer to the [Senior Traffic Commissioner's Statutory Document on PSV Operations](#) for further information.

The Traffic Commissioner needs to be satisfied that your organisation is eligible for a permit and therefore reserves the right to request additional information as required.

Giving false information or modifying the application form in order to obtain a permit is an offence and could lead to prosecution. It could also result in your vehicle(s) being impounded.
